Object: Certification of Ball Valves for Use with R-32 Refrigerant

To Whom It May Concern,

This letter serves as formal certification that the ball valve products listed below are designed, manufactured, and tested for compatibility with R-32 refrigerant gas and are compatible with the characteristics associated with this refrigerant when properly installed and used in accordance with applicable codes, standards, and manufacturer installation guidelines.

HMAX Certified Part Numbers:

REF-14-SODS  
REF-38-SODS  
REF-12-SODS  
REF-58-SODS  
REF-34-SODS  
REF-78-SODS  
REF-118-SODS

REF-14-WFS  
REF-38-WFS  
REF-12-WFS  
REF-58-WFS  
REF-34-WFS  
REF-78-WFS  
REF-118-WFS

This certification applies only to the part numbers listed above and is valid provided the products are installed and operated within their specified design limits.

Sincerely,

Quality Dept.

HMAX llc
